"They are the most hassle-free factory I've ever worked with. No inflated quotes, just real problem-solving. The core selling points of our products are perfectly underpinned by their engineering capabilities. Choosing Yanxi means choosing reliability."

-Former Head of Brand Operations, AMIRO

"Good design is ruined by poor craftsmanship. But they are the best inter-preters for designers. Their insistence on precision and detail borders on paranoia. I feel at ease handing over the drawings to them."

-Chief Structural Engineer, Musu

"When we send drawings to most factories, the reply is always 'we can make it.' Only they return a detailed process risk assessment, pointing out potential mass production issues in advance and providing solutions. This meticulousness of 'not causing trouble for themselves' actually safeguardsthe long-term reputation of our brand."

Second-generation Hydrogen-Oxygen 7-in-1

Product Features

1. Blackhead Removal: Powerful suction removes blackheads from the root. It delivers hydration while extracting, safe for skin and pores.
 2. Skin Scraper: High-frequency vibration atomizes moisture to break down blackheads and acne, which are eliminated along with water gently without enlarging pores.
 3. Nano Oxygen Injection Gun: Penetrates beyond surface hydration to deliver deep nourishment to skin layers.
 4. Ultrasonic Import Probe: Enables deep penetration to boost the absorption rate of skincare nutrients.
 5. Cold Hammer: Shrinks pores and locks in skin moisture and nutrients.
 6. Bipolar RF: Microcurrent stimulates skin muscles to tighten facial contours.
 7. 7-Color LED Mask:
- Red Light (630nm) Purple Light (630nm+460nm, Red+Blue Dual Wavelength)
 Blue Light (460nm) Yellow Light (520nm+630nm, Green+Red Dual Wavelength): Brightens complexion

A Generation Hydrogen-Oxygen 7-in-1

Product Features

1. Blackhead Removal: Powerful suction removes blackheads from the root. It delivers hydration while extracting, safe for skin and pores.
 2. Skin Scraper: High-frequency vibration atomizes moisture to break down blackheads and acne, which are eliminated along with water gently without enlarging pores.
 3. Nano Oxygen Injection Gun: Penetrates beyond surface hydration to deliver deep nourishment to skin layers.
 4. Ultrasonic Import Probe: Enables deep penetration to boost the absorption rate of skincare nutrients.
 5. Cold Hammer: Shrinks pores and locks in skin moisture and nutrients.
 6. Bipolar RF: Microcurrent stimulates skin muscles to tighten facial contours.
 7. 7-Color LED Mask:
- Red Light (630nm) Purple Light (630nm+460nm, Red+Blue Dual Wavelength)
 Blue Light (460nm) Yellow Light (520nm+630nm, Green+Red Dual Wavelength): Brightens complexion
 Cyan Light (520nm+460nm, Green+Blue Dual Wavelength) White Light (460nm+520nm+630nm, Blue+Green+Red Triple Wavelength)condition
